# CUSTOMERS WE SERVE.

## Homeland Security

We're pleased to be a part of our Nation's Defense through our work with the Department of Defense and the US Army.

## Public Safety

Across the nation, we're proud to be chosen by law enforcement to be the technology solution for public safety, neighborhood safety and Next Generation 911.

## School Safety

In 1,512 K-12 schools we're selected as the vendor of choice to deliver regulation compliant safety solutions for student and faculty safety.

# BROADER INTELLIGENCE PERSPECTIVE

Engaging the fan to participate in stadium safety

# BROADER INTELLIGENCE PERSPECTIVE

Engaging the fan to participate in stadium safety

## **Their Already Using the Technology.**

Integrate with current fan app experience to speed distribution to the current user base.

## **Inside the Stadium**

Instantly receive suspicious activity reports from the fan with photos, videos and mapped to seat location or common area.

## **Engage Crowdsourcing**

A single person's knowledge can be magnified by the collaboration of a team's fans to protect each other.

## **Send Mass Notifications**

Alert the fans of BOLOS, or request information about suspicious persons or events. Send mass notifications (reverse 911 notices)

# BROADER INTELLIGENCE PERSPECTIVE

THROUGH USE IN THE LEAGUE

## PHONE CALL/HOT LINE

Port existing lines to the dashboard for tracking and intelligence.

## SHARED INTELLIGENCE

Share data with Law Enforcement to help combat global terrorism.

## CALENDER

Map reports over time to see trends and comparative analysis.

## MULTI-TEAM USE

Compare and contrast tips from each team for similarities.

## MAPPED DATA

As tips are received they are mapped to reveal location inside and outside of the stadium

## PHOTOS AND VIDEO

Fans can attach images and video to their text or audio tip

## REPORTING

Schedule reports based upon user defined search terms or create ad-hoc reports as needed.

## ASSIGNMENT

As tips are received, the system can automatically forward to security.

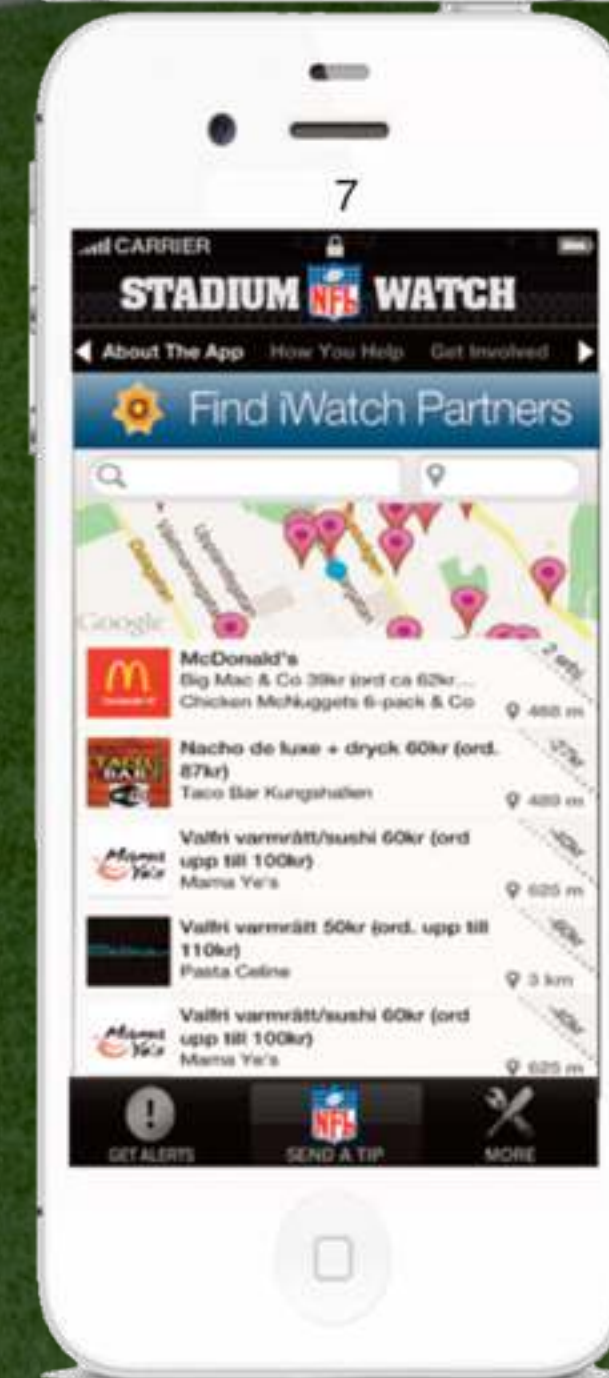

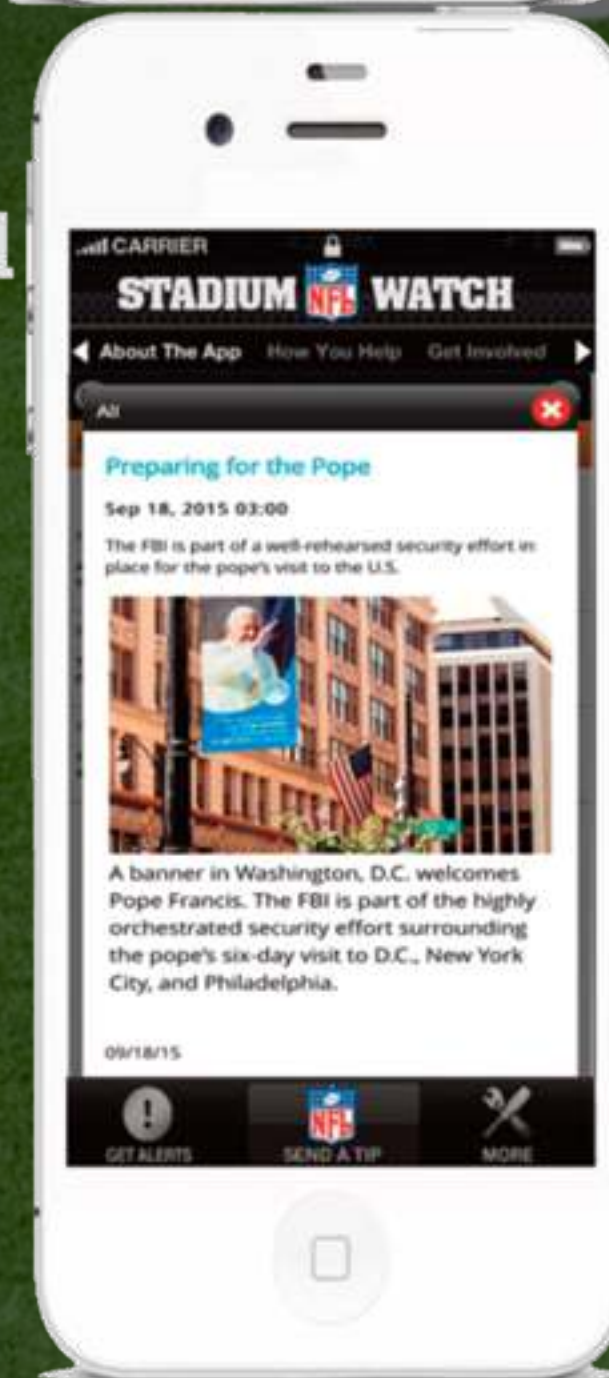

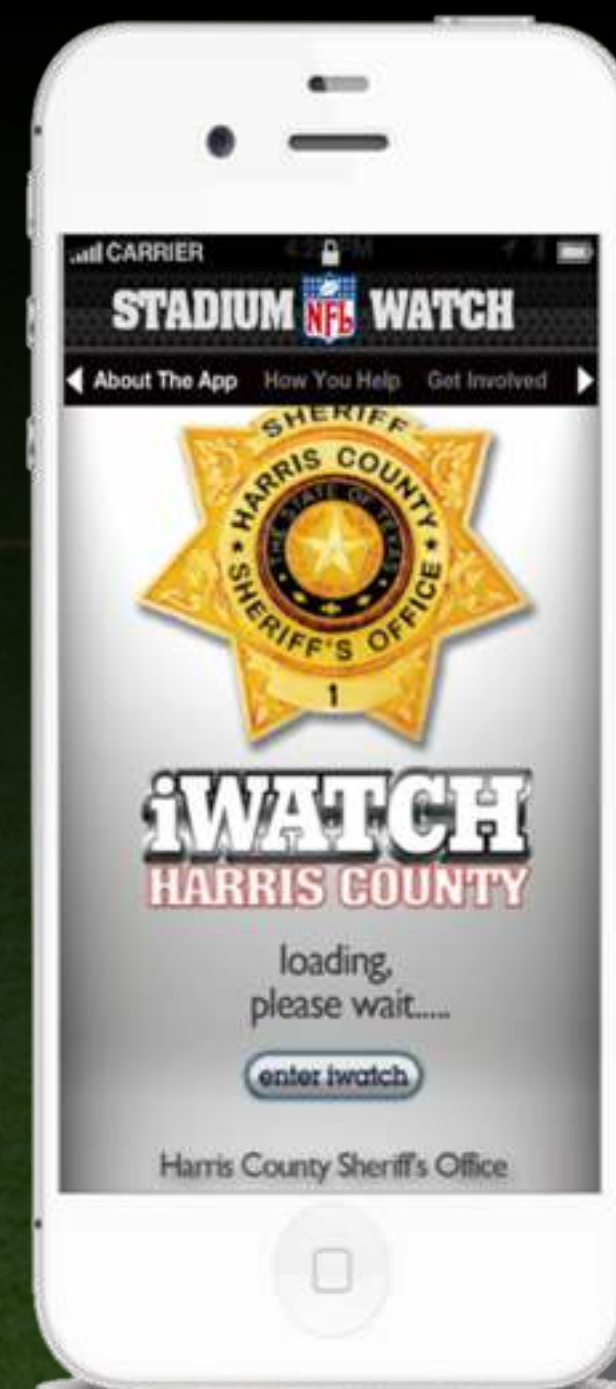

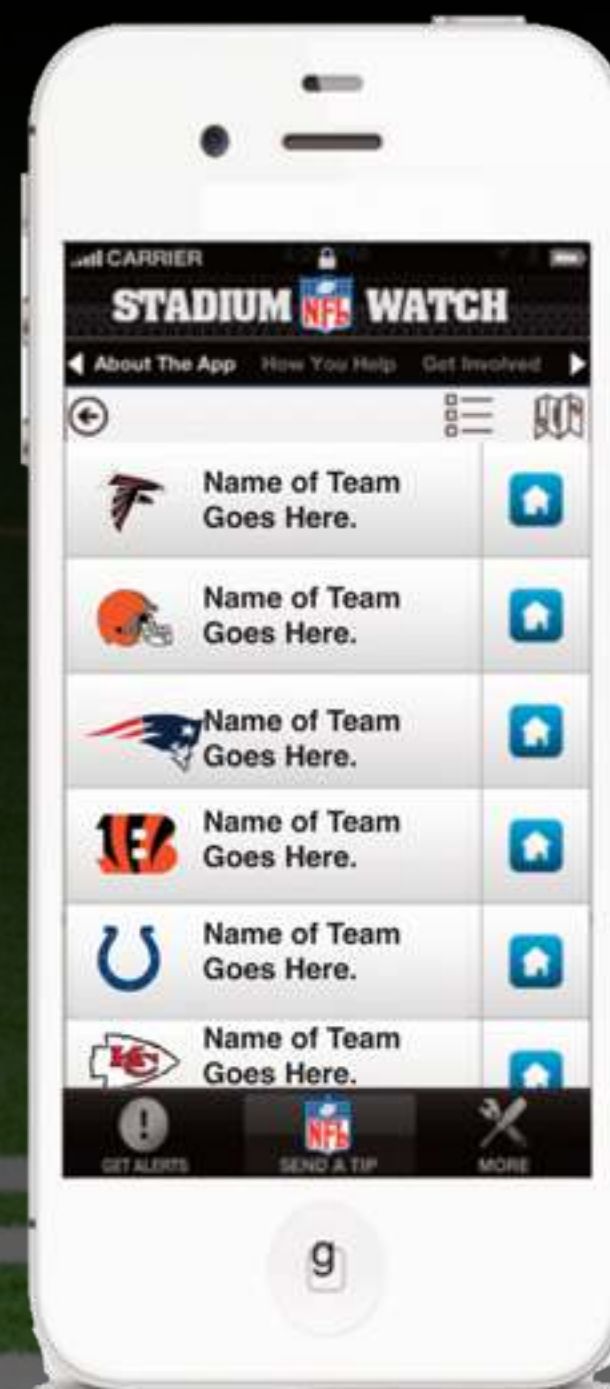

# HOW IT WORKS. TIP FLOW.

## Send a Stadium Tip

iWatch App version 17.5 IOS/Android/Html

Step by step process of sending and tracking a stadium tip

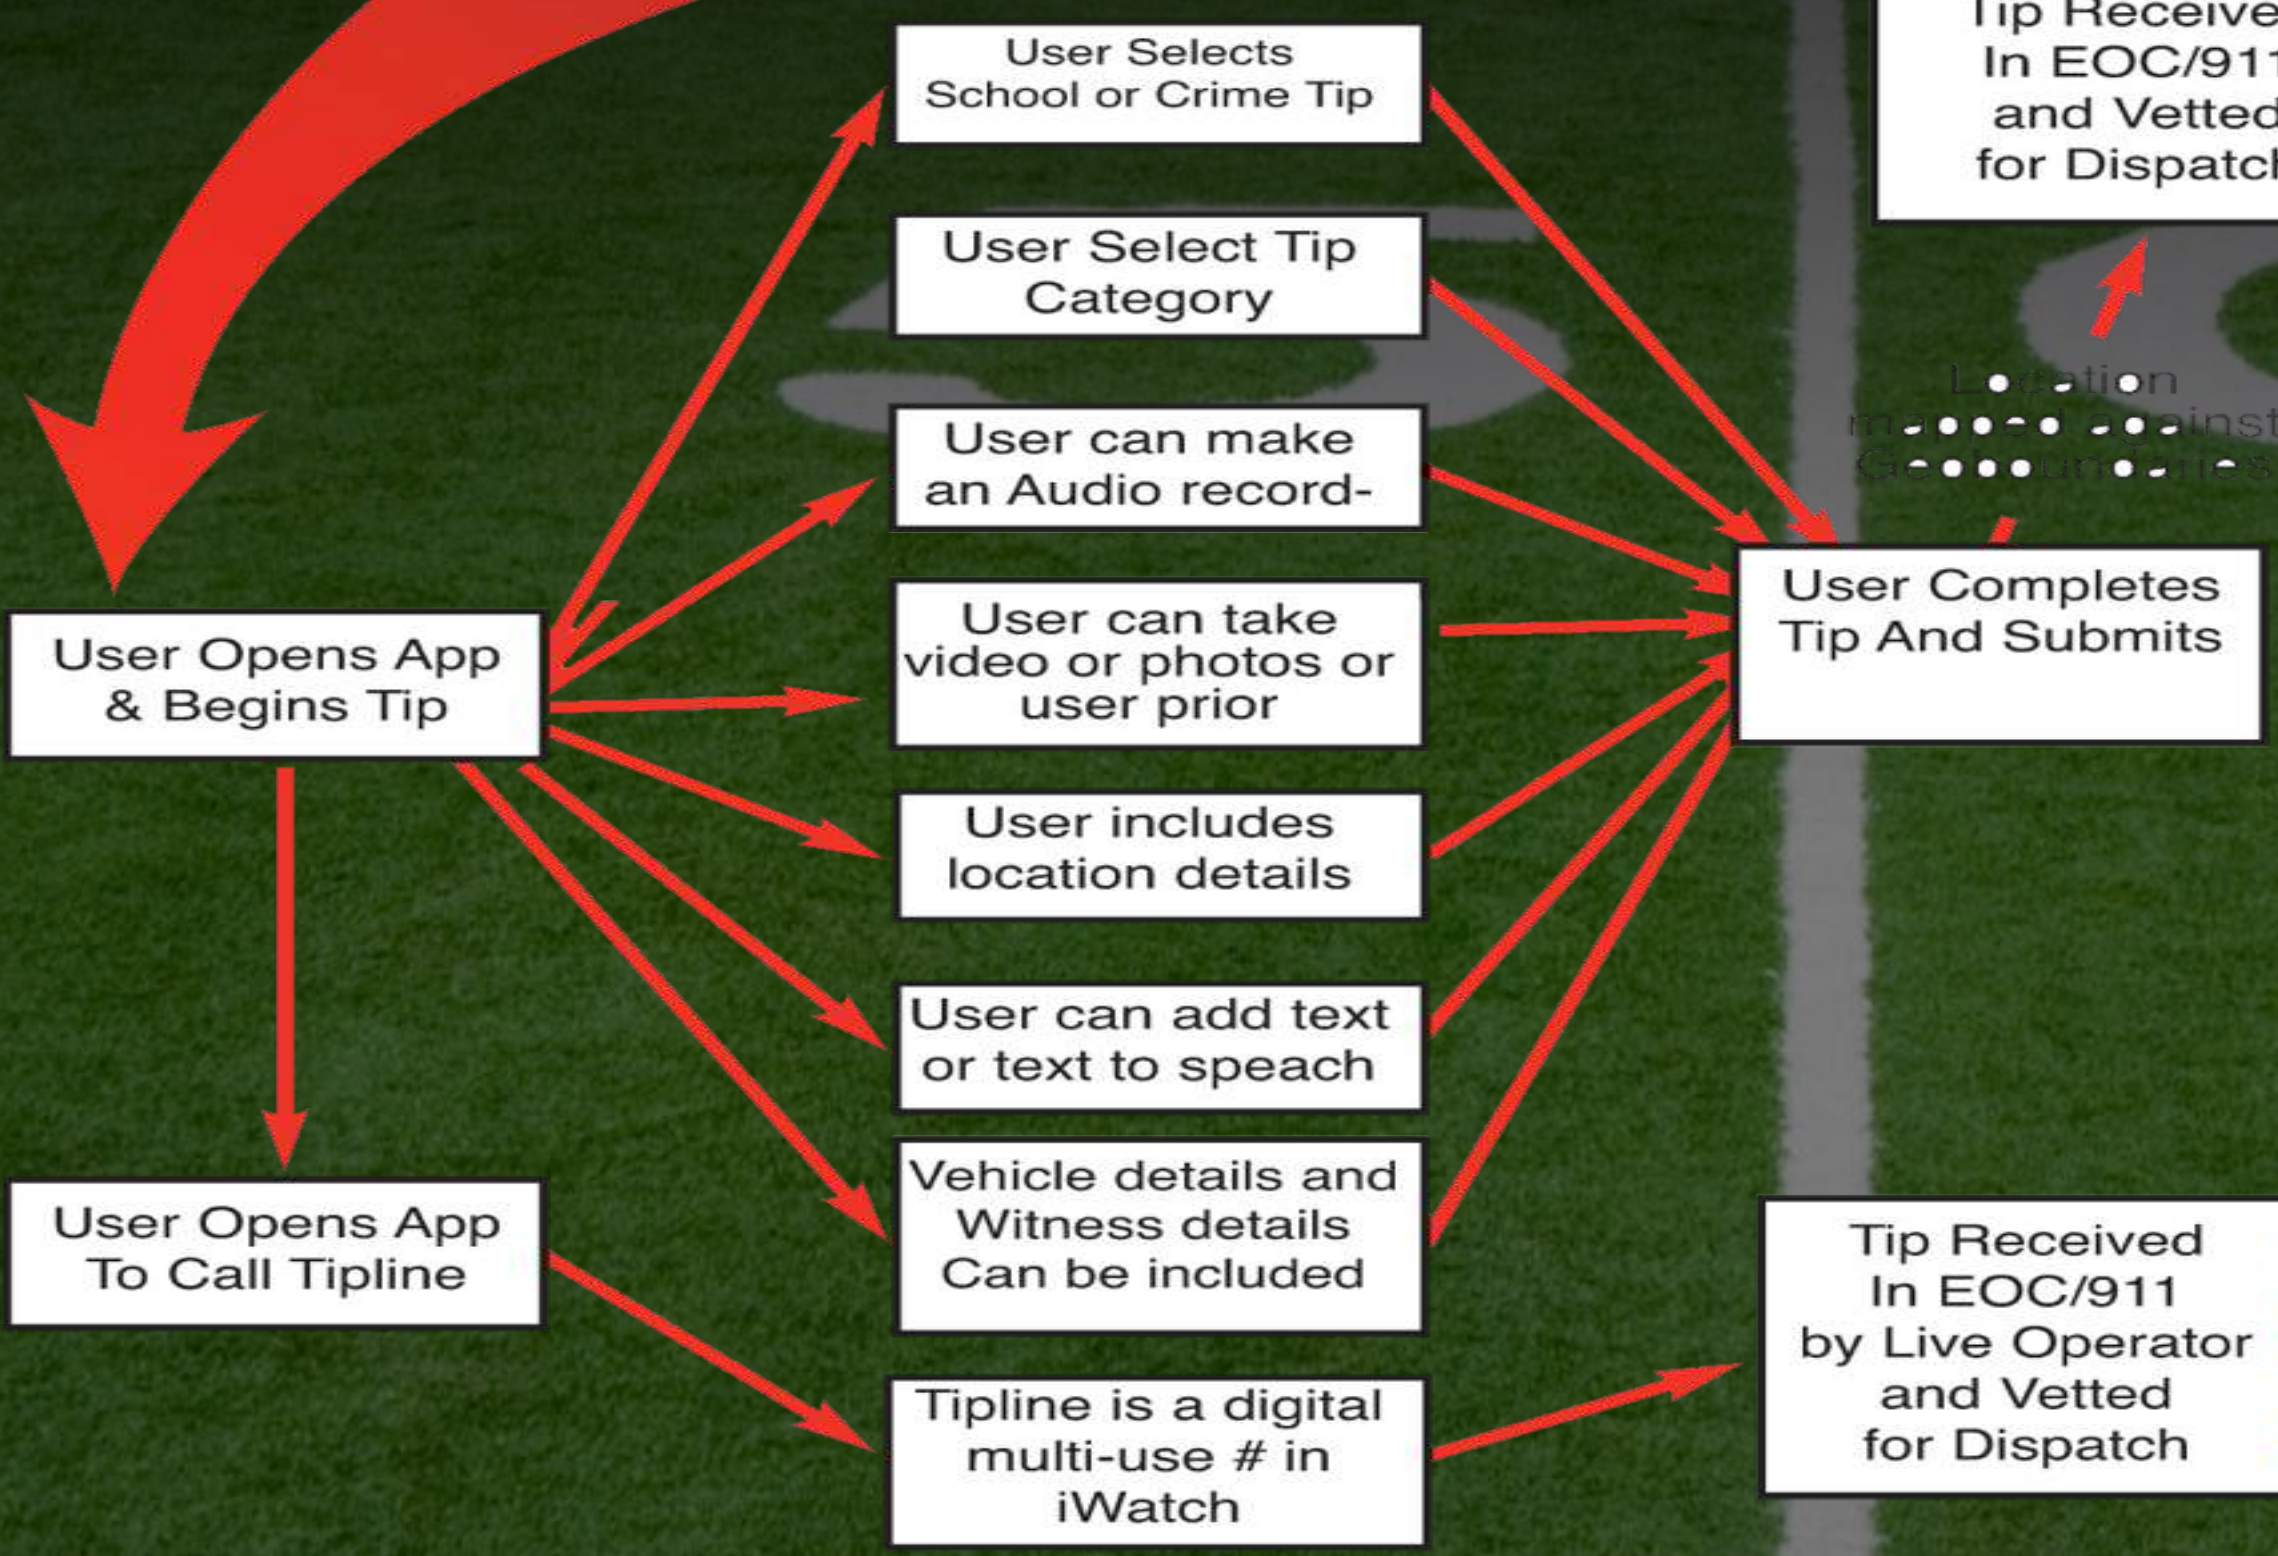

- #1 User loads app onto phone, identifying with the agency
- #2 After seeing the disclaimer for 911, the user sees the home screen with three main choices, send a report, or call security.
- #3 If user has not selected a team from the participating iWatch Partners, a menu of teams is displayed. (there is text box not shown that describes the selection process)
- #4 User selects a school to send the tip, and a list of crime types is displayed.
- #5 User no longer makes phone calls, (less than .25%), tip is recorded, and added to the tip.
- #6. User can add or not add location by detection of their geolocation, or entry of a location within the stadium.
- #7 If user has selected "ADD MORE" they can type in a complete tip with images along with a complete narrative.
- #8 Upon submittal, user sees confirmation and has the link to any comments or updates needed by investigators.

# CONCLUSION

*We can effectively fulfill the wants and needs of stadium safety and its public trust.*

Fully integrates with local law enforcement to provide two-way communications in both emergency & SAR applications.

Provides collaborative platform for case management & distribution of BOLOs and updates.

Links to & enhances current league mobile platform and content.

Tested, secure platform in use by Law Enforcement, Military, Education and Transportation.

**iWATCH**

 **closewatch**<sup>TM</sup>

thank you
