apptify shoptimism

Details at: www.apptify.me

INCREDIBLE TECHNOLOGY. INCREDIBLE VALUE.

A Shoptimism App lets you convert visitors into sales with secure shopping tools, social marketing and outreach. Leverage your current website and meet the bottomline when you add mobile to your marketing message .

In the beginning it was enough to have an app. It was, essentially, shiny new toy syndrome: you had an app, you were cool, your company was hip, and you were part of the new wave.
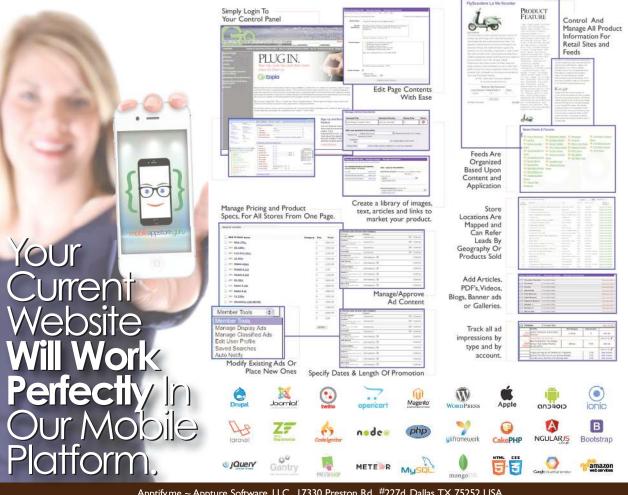

(Remember this phase from the early days of the web as well.)

But even today, many app developers are expecting to overcharge and under deliver, since most customers don't know the differences. At Apptify we say more power, less cost, no code and no compromises. The best part is that you stay in control. Change your app as often as you like with the Apptify Content Dashboard. The user-friendly menu makes changing any part of your app fast and easy. Update your product catalog, edit text, images, downloadable documents, email links, colors, you name it. It's all a snap. And the

Apptify Content Dashboard is online, so there's no software to install and it's available 24 hours a day.

Flashy animations on your app can be fun to look at (the first time), but your app needs to convert visitors into customers to help your bottom line. The difference between just having an app and truly doing business is sales tools. Sales tools like a full online product catalog, the ability to receive credit card payments online via PayPal, downloadable product specs and page-specific keywords. Push notifications and alerts.

These are the features that make the difference, and with Shoptimism, you get them all.

If your business needs to start selling online ASAP, Shoptimism is the answer.

Your Current Website Will Work Perfectly In Our Mobile Platform.

Simply Login To Your Control Panel

Edit Page Contents With Ease

Manage Pricing and Product Specs, For All Stores From One Page.

Create a library of images, text, articles and links to market your product.
